TECH PROFICIENCY

AI Video & AI Tools: Google Flow / Google Labs, ChatGPT, Claude, Gemini, Canva AI

Video & Design: CapCut, Canva, Figma

Productivity & Data: Microsoft Office, Excel, Google Workspace (Gmail, Docs, Sheets, Calendar, Drive)

Communication: Zoom, Google Meet, Slack, Discord

EDUCATION

Bachelor of Science in Information Technology

Pampanga State University | Pampanga, Philippines | 2026

Relevant Coursework: Database Management, Web Development, Systems Analysis and Design, Information Management

RELEVANT EXPERIENCE

IT Intern / OJT

- Completed approximately 92–95% of assigned encoding, record-management, and administrative tasks, demonstrating accuracy and reliability in daily operations.
 - Managed and updated digital patient records, ensuring information was accurately encoded, organized, and maintained.
 - Organized files and documents for easier retrieval, supporting efficient record management and workflow.
 - Reviewed and verified encoded information, identifying errors and ensuring the accuracy of submitted records.
 - Assisted staff with documentation, logbook recording, data entry, and daily administrative tasks while adapting to changing priorities.
 - Learned and adapted to a new digital encoding system, improving efficiency and confidence in using unfamiliar tools and workflows.
 - Handled confidential patient information responsibly while maintaining attention to detail and professionalism.
-

Media & Content Assistant

Head On Media | 2022 – 2024

- Managed multiple content tasks from project requirements through completion, ensuring deliverables were organized and completed according to project needs.
- Created promotional posters and visual materials based on project requirements, producing clear and engaging content.
- Edited photos and videos to produce polished final outputs while maintaining consistent attention to detail and quality.
- Captured and organized photo and video assets according to different project requirements, adapting to changing content needs.

- Managed digital files and project assets, supporting an organized and efficient content workflow.
 - Worked independently on assigned tasks while incorporating feedback and completing outputs according to project requirements.
-

Video and Photo Editor

School | 2018 – 2020

- Managed photo and video editing tasks from raw files to completed outputs, ensuring projects were organized and completed according to requirements.
 - Edited and refined video footage by cutting, trimming, and rearranging clips to create cohesive final content.
 - Improved image quality through color, brightness, contrast, and background adjustments, producing polished visual outputs.
 - Managed multiple editing requirements while maintaining attention to detail and organized project files.
-
